

Xerox® EX C60/C70 Print Server Powered by Fiery®

Innovative, scalable, integrated.

Achieve unparalleled image and colour quality, outstanding productivity and seamless integration, allowing you to win new business and get your customers noticed.

Boost your production and profits.

The powerful Fiery® digital platform enables you to handle heavy workloads and provide faster turnaround times. It enables you to produce short-run jobs profitably by automating manual tasks and increases your workflow flexibility by supporting industry-leading variable data printing (VDP) formats.

Speed up makeready, reduce waste.

Fiery Impose simplifies layout work with intuitive, visual document imposition. Speed up production with imposition templates to automate common layouts.

Get outstanding colour every time.

The Fiery server helps you produce precise, exact, high quality colour out of the box. Fiery Spot-On™ and the optional Fiery Colour Profiler Suite deliver enhanced control of colour quality. The optional Fiery Graphic Arts Package, Premium Edition provides the most advanced tools for previewing output and troubleshooting digital print jobs before printing, minimising waste and rework.

Deliver finished jobs simply and quickly.

Fiery technology allows you to centralise job management by connecting to all Fiery servers on the network. The intuitive interface of Fiery Command WorkStation® makes complex jobs simple to set up and print, regardless of the operator's experience. The flexible software runs on a Windows or Mac® client and adapts to any environment.

Print perfect PDFs.

By supporting the Adobe® PDF Print Engine, Fiery servers offer a native end-to-end PDF workflow. This improves consistency and flexibility of prints from design to output in both digital and offset print environments and also ensures correct representation of colour spaces and transparencies.

Automate with seamless integration.

Fiery JDF technology connects EFI MIS solutions and Fiery-enabled solutions, so you can move job information through your system faster and more efficiently.

Fiery servers enable integration with Xerox® FreeFlow® Core for workflow automation.

Xerox® EX C60/C70 Print Server

Powered by Fiery®

Hardware / Platform

- Intel® Core™ i5-4570S Processor 2.9 up to 3.60 GHz with Turbo, Quad Core
- Hard drive: 1 TB
- Performance optimised by proprietary EFI hardware and software technology, including VX600 ASIC and Fiery system software
- RAM: 4 GB DDR Memory
- DVD-RW drive
- USB ports: 7 USB 3.0 ports (4 on rear, 3 on Fiery QuickTouch panel), 2 USB 2.0 ports
- Microsoft® Windows® 8.1 Professional FES x64
- Server touchscreen interface for easy device management and status information with Fiery QuickTouch™ software
- Fiery® FS200 Pro software

Fiery Colour Technology

- Job-based Calibration Integration
- Fiery Spot-On finds the best match of PANTONE®, PANTONE +V2 Series, RGB, CMYK, L*a*b* and Spot Colours
- PANTONE Approved
- Composite overprint of greyscale, spot, and CMYK colours
- Fiery Image Enhance Visual Editor
- Colour Modes for professional proofing and enhanced production colour requirements
- Maximum print density of the printer
- Fiery Graphic Arts Package, Premium Edition (option) provides expert tools for preflighting and troubleshooting jobs
- Fiery Colour Profiler Suite (option) creates, verifies and edits colour profiles with a single profiling solution

Productivity and Workflow

- Spool-RIP-Print simultaneously
- Bidirectional paper catalogue management
- Integration with Xerox® FreeFlow Core
- Integration with Xerox® Standard Accounting
- Adobe PDF Print Engine® (APPE) version 3**
- Native Fiery JDF integrates creative, production and management information solutions, making digital production faster and more efficient
- Fiery Command WorkStation®
- Advanced Job Management features such as Sequential Print, Proof Print, Schedule Print, Suspend on Mismatch, Job Reorder, Force Print and Quick Doc Merge
- Fiery Hot Folders for PC and Mac includes Microsoft Office filters, automatic merge of JPEG files to produce photo booklets and contact sheets*
- Virtual Printers automates job preparation
- Support of PDF XObjects on a per-job basis
- Fiery Go to manage your printer from a mobile device
- Fiery Remote Scan

Document Preparation

- Booklet Maker allows flawless booklet imposition from the Fiery driver
- Fiery Impose offers visual document imposition
- Fiery Compose (option) offers visual document preparation

Variable Data Printing

- VDP Record-level finishing allows you to apply finishing to a VDP job at a record level
- Fiery VDP imposition capabilities include raster preview, sample proof printing and control strip
- Define Record Length allows PS and PDF files to be processed as a VDP job of fixed record length
- Supports the following formats:
 - VI Compose with Specialty Imaging, Xerox® VIPP®
 - PPML 2.0/2.2/3.0
 - Fiery FreeForm™
 - Creo™ VPS
 - PDF/VT-1 and PDF/VT-2

Network Connectivity

- TCP/IP, IPP
- LPR/LPD
- Port 9100
- 1 GB Ethernet
- SMB Print Sharing (Over TCP/IP)
- FTP Printing
- Print via Email
- Apple® Bonjour®
- SNMP v3
- JMF (JDF Job Messaging Format)
- Point and Print (PnP)
- Direct mobile printing
- PrintMe cloud printing
- Single and Dual TCP/IP Connectivity for Integration with Xerox Extensible Interface Platform® and other applications

PDLs and Data Formats

- Adobe® PostScript® Level 1, 2, 3
- PDF/X-1a, 3 and 4*
- EPS
- Adobe® Acrobat® XI: Native PDF 1.3, 1.4, 1.5, 1.6, 1.7
- CT/LW*
- TIFF, TIFF/IT-P1, DSC2*, JPEG*, ExportPS*, PDF2Go*

Client Environments

- Fiery Driver 5.0 (Bidirectional) Support for:
 - Windows Server® SP1 (64-bit), R2 (32- and 64-bit)
 - Windows Server 2012 64-bit only
 - Windows Server 2008 32- and 64-bit and R2 64-bit
 - Windows 10 all versions
 - Windows 8 all versions
 - Windows 7 32- and 64-bit
 - Macintosh® OS X® 10.7 or higher

Security Features

- IP Filtering for IPv4/IPv6
- Secure Erase
- Backup and Restore
- Fiery System Restore
- User Authentication via LDAP
- IP Sec Support
- SSL/TLS Support
- Certificate Management
- Encryption of Critical Information
- IPv6 Support

Options

- Fiery NX Station GL: Fiery work stand, Fiery Ticker, 22" monitor, wireless keyboard and mouse
- Fiery Colour Profiler Suite including EFI ES-2000 Spectrophotometer
- Fiery Graphic Arts Package, Premium Edition
- Fiery Compose
- Removable hard disk drive
- EFI Hub

Electrical Requirements

- Autoswitching: 100-240 V, 60/50 Hz for Global Use
- Processor: 100-240 V, 60/50 Hz, 5 A
- Monitor: 100-240 V, 60/50 Hz, 0.65 A @ 100 V, 0.30 A @ 240 V
- Total Watts: 200 W (Typical)
- BTU/hour: 696

Dimensions / Weights

- Print Server:
 - Height: 527 mm
 - Width: 235 mm
 - Depth: 464 mm
 - Weight: 16.5 kg
- NX Station GL:
 - Height: 1,665 mm
 - Width: 800 mm
 - Depth: 866 mm
 - Weight: 45 kg

*Only available with Fiery Graphic Arts Package, Premium Edition
**Updated with enhancements and service releases on an ongoing basis
