

Xerox® EX-i C60/C70 Print Server Powered by Fiery®

World-class colour with workflow tools that put you in command.

Productivity starts with a fast RIP.

The EX-i C60/C70 Print Server Powered by Fiery® enables you to print large and/or complex Microsoft® Office® documents, PowerPoint® files and colour-critical PDFs accurately and quickly. It improves throughput and productivity by printing one page while processing subsequent pages, and by storing processed pages in memory before printing.

Simplify and streamline your workflow.

Automate job submission of repetitive job types to achieve productive, error-free workflows with Fiery Hot Folders and Virtual Printers.

Take advantage of commonly used Fiery presets to save time when submitting jobs. With Fiery server technology, even novice users can produce complex jobs using the presets configured for the task.

Get the colour right.

Produce precise, exact colour from all applications, platforms and formats with Fiery ColourWise® colour management technology. Accurately match corporate, logo, brand and custom colours with Fiery Spot-On™.

Turn up the impact with variable information.

Customise your output to a specific audience with varying text, photos and graphics with Fiery FreeForm variable data printing capabilities.

Reduce costs.

Fiery servers help control costs in many different ways. IT administrators can create Fiery Virtual Printers or customised printer drivers with appropriate print options for different groups of users or limit certain features to certain group of users. This enables users to print correctly, eliminating waste, with a simple File>Print operation.

Enhance your print capabilities.

Integrate with JDF-enabled workflows and make last minute image and file corrections with the features included in the optional Fiery Productivity Package.

A secure production environment.

Concerned about security? So are we. Your administrators will appreciate the EX-i C60/C70 Print Server complete toolset covering all aspects of document and device security.

Fiery® VUE from EFI™ is a free "visual print application" that produces professional-looking, finished print materials quickly, easily and cost-effectively from your desktop.

Xerox® EX-i C60/C70 Print Server

Powered by Fiery®

Production Printer Supported

- Xerox® Colour C60/C70 Printer

Hardware/Platform

- Fiery® FS200 software
- Intel Pentium G1820 Processor (2.7 GHz)
- Performance optimised by proprietary EFI hardware and software technology, including VX600 ASIC and Fiery system software
- Memory: 2 GB
- Hard drive: 500 GB
- Server Operating System: Linux®

Network Connectivity

- Ethernet 10/100/1000Base-T Autosensing
- 6 USB ports (2 USB 3.0, 4 USB 2.0)
- Single and Dual TCP/IP Connectivity for Integration with Xerox Extensible Interface Platform® and Other Applications
- LPR/LPD
- Port 9100
- IPP Support
- Support for 10/100/1000 Ethernet
- SMB Print Sharing (Over TCP/IP)
- FTP Printing
- Print via Email
- EtherTalk™
- SNMP v3
- Direct Mobile Printing

Page Description Languages

- Adobe® PostScript® 3™ (v3020)
- PCL® 6C (Emulation)
- Adobe® Acrobat® XI: Native PDF 1.3, 1.4, 1.5, 1.6, 1.7

Print Specifications

- Print Resolution: 2400 x 2400 dpi

Scan Resolution

- 200 x 200 dpi, 300 x 300 dpi, 400 x 400 dpi, 600 x 600 dpi

Maximum Image Size

Print

- Maximum Area: 330 x 488 mm
- Maximum Guaranteed: 320 x 480 mm

Print Drivers

- Fiery Driver 5.0 (Bidirectional) Support for:
 - Windows Server® SP1 (64-bit), R2 (32- and 64-bit)
 - Windows Server 2012 64-bit only
 - Windows Server 2008 32- and 64-bit and R2 64-bit
 - Windows 10 all versions
 - Windows 8 all versions
 - Windows 7 32- and 64-bit
 - Macintosh® OS X® 10.7 or higher

Driver Certification

- WHQL Certified

Fiery Utilities

- Fiery Command WorkStation
- Fiery WebTools
- Fiery FreeForm for Variable Data Printing
- Fiery Spot-On
- Auto Trapping
- Hot Folders and Virtual Printers (Option)
- Fiery Clone Tool
- Fiery Go
- Fiery Remote Scan

Calibration

- ColourCal (Standard, Off the Glass)
- ES-2000 Available with Fiery Colour Profiler Suite Option

Document Management

- Bidirectional paper catalogue management
- Spool-RIP-Print Simultaneously
- Scan-RIP-Print Simultaneously
- Fiery SmartRIP
- Face-up and Face-down Printing
- Fiery Scan and Scan-to-Job Templates
- Fiery Driver Based Booklet Creation
- Booklet Maker
- Support for Xerox® Standard Accounting

Standard Colour Simulation Profiles

- GRACoL® 2006 Coated 1
- SWOP® 2006 Coated 3
- SWOP 2006 Coated 5
- DIC
- ISO-Coated (Fogra 39L)
- ISO-Uncoated (Fogra 29L)
- TOYO Offset-Coated 2.0
- Japan Colour 2011 Colour

Fonts

- 138 Adobe Fonts
- 81 PCL Fonts

Security

- Secure Erase
- Scan to Mailbox
- SNMPv3
- IPsec
- 802.1X
- SSL/TLS
- User Authentication
- IP Filtering / Port Blocking
- System Update
- IPv6

Options

- Fiery Colour Profiler Suite Including EFI ES-2000 Spectrophotometer
- Fiery Impose
- Fiery Hot Folders and Virtual Printers
- Fiery Productivity Package
 - Fiery JDF
 - Graphic arts filters for Hot Folders
 - Fiery Image Enhance Visual Editor
 - Fiery ImageViewer
 - Postflight report
 - Control bar
 - Configurable auto trapping
 - Paper Simulation
 - Fiery JobFlow

Power Requirements

Server Power is not Supplied by the Engine.

- Power Service is Required. 100-240 V, 8A

Fiery Command WorkStation can manage all Fiery Driven™ printers locally or remotely from Mac or Windows clients.
