

Offer more with production level LED printing

Designed to drive productivity, the two-metre EFI™ VUTEK® GS2000Lx Pro LED printer gives you the ability to print on thinner and speciality substrates while lowering costs.

High-definition imaging and LED technology

- Deliver high-definition POP graphics with true greyscale technology, 1,000 dpi, and multilayer white ink printing
- Extend the range of supported substrates with innovative LED technology
- Increase uptime, productivity, and efficiency while reducing maintenance with instant on/off LED lamps
- Drive down operating costs with decreased power consumption, fewer consumable parts, and less waste, while printing consistent colour output with simpler operation
- Satisfy customer requests for a greener print solution

Continuous print productivity

- Take on more jobs and turn them faster with continuous print productivity
- Accurately align images on single- or double-sided rigid material using the precision alignment fence

Increased reliability, consistency, and performance

- Maximise uptime with fewer parts, improved reliability standards, and easy troubleshooting
- Run multiple jobs at once with multi-queue functionality available at the user interface
- Integrate your VUTEk printer with EFI Web-to-Print and MIS/ERP solutions with native JDF connectivity

Features and benefits

- Production-level LED technology
- Eight-colour plus two white and single-pass, multilayer printing
- Switchable to Fast-5 for high productivity
- Dual resolution: True 600 dpi (24 pL) or 1,000 dpi (12 pL) selectable
- Output up to 186 m²/hr and 45 – 1.2 m x 2.4 m sheets per hour
- True variable drop greyscale print capability

Media/Handling

- Handles flexible and rigid media up to 2 m wide and up to 5.08 cm thick
- Optional extension table with casters and small depth extension table

Productivity

- Fast-5: 186 m² per hour
 - Production up to 45 – 1.2 m x 2.4 m boards per hour
- Eight-colour plus white: 93 m² per hour
 - Production up to 24 – 1.2 m x 2.4 m boards per hour

EFI Fiery® proServer

- Optimised for use with the EFI Fiery proServer
- Bidirectional communication capability between the Fiery XF RIP and printer allows back communication of audit information on every print job
- Powerful production tools, such as nesting, step and repeat, scaling, cropping, and tiling
- Advanced ICC colour management for reliable colour, quality output, and proofing-quality colour

Genuine EFI Inks

- Supplied in 5.0-litre containers
- Expanded gamut CMYK pigments for world-class Pantone® matching
- EFI pigment dispersions ensure optimised size and concentration for best-in-class ink stability

Enhanced Service Program (ESP)

- EFI's industry-leading service and support programme for your printer, Fiery proServer hardware, and Fiery XF software
- Thirteen months of Essential coverage, with 24-business hour (3-business day) response
- Eligible for upgrade to:
 - Critical: Providing 8-business hour (1-business day) response
 - ProActive: Providing 16-business hour (2-business day) response

Environmental considerations

- Compressed air: 8–10 bar maximum at 340 l/m – dry air only (not included)
- Fully enclosed design for operator safety and environmental considerations
- Temperature: 20 °C to 30 °C
- Humidity: 30% to 80% (noncondensing)
- Machine weight: 2,291 kg
- Height: 167.6 cm
- Width: 513.08 cm
- Depth: 160 cm, 414 cm with tables
 - + 12.7 cm unwinder
 - + 12.7 cm rewinder
- Electrical: 3-Phase, 20 amps @ 200 – 230 volt supply or 10 amp @ 400 – 460 volt supply

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit www.efi.com or call 0808 101 3484 (UK only) or +44 (0)1246 298000 for more information.
