## Download your favorite presentations

### Mobile site:

1. Click on the presentation class session you would like to download.
2. To download, you will need to send it to an email address.  
The presentation will arrive as an email attachment that you can save.

### Smartphone app:

1. Click on the presentation class session you would like to download.
2. A screen will pop up that gives you three choices: take notes on handout, download, or email. You can download straight to your device or email the presentation, and it will get sent as an attachment. If you press email, a box pops up for you to type in which email address you want it sent to.
