## How To Use This Guide

This guide describes the changes made in EFI Technique v6.0.4.

Before you upgrade your EFI Technique system to v6.0.4, read the descriptions of the changes made to all the modules that you plan to use. Also read about the minimum system requirements and review any changes with other system users, as applicable. If you have any questions about how the changes may affect you or about changes that you must make to your system before you upgrade your system, please contact your EFI Technique Support representative.

## Contact Information

### EFI Support

---

<b>Web Site:</b>	<a href="https://customer.efi.com/support">https://customer.efi.com/support</a>
<b>UK Phone:</b>	+ 44 (0) 1246-298085
<b>US Phone:</b>	+1-855-EFI-4HLP
<b>E-Mail:</b>	<a href="mailto:technique.support@efi.com">technique.support@efi.com</a>

Regular USA Service Desk hours are 8:30 AM to 5:00 PM Eastern Time, Monday – Friday.

Regular European Service Desk hours are 8:30 AM to 5:00 PM Greenwich Mean Time (British Summer Time during summer), Monday – Friday.

**Note** For problems involving infrastructure (i.e., computers, networks, operating systems, backup software, printers, third-party software, etc.), contact the appropriate vendor. EFI cannot support these types of issues.

### EFI Professional Services

---

<b>UK Phone:</b>	+ 44 (0) 113 3836000
------------------	----------------------

EFI Professional Services can help you perform EFI software installations, upgrades, and updates. This group can also help you implement, customize, and optimize your EFI software plus offer a range of training options.

## v6.0.4 Fixed Defects

This section summarizes the defects fixed in EFI Technique v6.0.4 by module, including the corresponding issue number and fix version.

### Data Collection

Issue: Data Collection would unexpectedly close when starting a job on a second instance of Data Collection.

Resolution: Jobs can be started successfully on a second instance of Data Collection.

Defect | 03859449 03866367 03894604 03951420 | TECHNIQUE-9670 | v6.0.4

### Data Collection, Data Collection Link

Issue: If DB Link > Resource > Requeue Job List check box is selected, job lift and job end functions fail when the job list has been re-ordered.

Resolution: The job lift and job end functions complete successfully and the job list sequence is maintained when DB Link > Resource > Requeue Job List check box is selected.

Note: After a manual lift the next job is the second job in the queue (the lifted job remains at position one). This is consistent with normal operation. If the operator requires to return to the lifted job then saving the queue will reset the next job. Or alternatively if the 'second' job is started and lifted/ended then the next job will again be the lifted job as it is in position one.

Defect | 3987839 | TECHNIQUE-10262 | v6.0.4
