

Fiery® imagePRESS Server G250 V2
Fiery FS400

Get an innovative and scalable business solution

The Canon imagePRESS Server G250 V2 for the imagePRESS C910 series lets you produce outstanding quality, increase productivity, and maximise ROI.

Stand out with outstanding colour quality

- Produce stunning colour with the smoothest blends, maximum shadow details, and superb image definition with Fiery Edge™ default ICC profiles built in.
- Accurately reproduce brand colours, match PANTONE® and custom spot colours with Fiery Spot-On™. Add the optional Fiery ColorRight Package for advanced spot colour management, plus colour and image correction needs.

Increase productivity with easy-to-use job management tools

- Increase your production, reduce errors, and make job management faster and more efficient with Fiery Command WorkStation®. Add the optional Fiery Automation Package to use professional preflight tools and reduce job touchpoints.

Maximise ROI with data-driven production

Get the most out of your print devices with the EFI™ IQ™ suite of free cloud applications. Use:

- IQ Dashboard to visualise key production data in near real time, and make decisions to get more volume out the door.
- EFI Insight to capture and transform production data into actionable analytics and use it to drive business improvement.
