

Flowering Bulbs

From lilies to tulips, flowering bulbs are a garden staple. Flora Garden Society stocks both summer and fall bulbs, so you can enjoy beautiful blooms year-round. Bulbs are among the easiest flowers to grow, and produce vibrant colors that span the rainbow. We are proud to offer the best selection of bulbs available, and carry many different species of daffodils, tulips, lilies, and other flowering bulbs.

Winter bulbs like daffodils, crocus, and tulips are considered winter hardy, meaning they can be planted in the fall and bloom in the spring. Some winter bulbs will only produce flowers for a single season. These bulbs should be dug up and discarded at the end of summer. Most spring bulbs, such as amaryllis and caladiums, will produce blooms again and again. Spring bulbs are more sensitive to temperature. Once fall creeps in, spring bulbs need to be carefully dug up. Bulbs should be stored in a cool, dry place until temperatures warm up and the ground thaws. If you take care to save and store bulbs properly, they are an economical flower choice and will last for years to come.
