

EFI wide format applications, substrates, inks, and markets.

Invest in your bottom line; expand your market access

By investing in EFI™ Wide Format printers and inks, you not only can increase the profitability of your existing business, but also position yourself for profitable expansion or market share gain. EFI printers provide access to traditional and specialty applications across many substrates. They also deliver outstanding print quality, productivity, flexibility, and give you a fast return on investment that involves using the printer for as little as two hours a day¹.

Whether you are a quick or screen printer or own a commercial, production printing, graphic arts, or packaging business, these advantages can have a huge impact on your profitability, market share, and access to new opportunities.

Check out all the market, application, substrate, and ink possibilities for your business².

MARKETS	PRINTER MODEL	
	H1625 LED	H652
Production printing	✓	✓
Print shops / franchise shops	✓	✓
Quick printers	✓	✓

¹ The “less than two hours a day” data point is based on gross profit model of \$1–\$3 per sq ft for a mix of rigid and roll media and printing in HQ mode at 80% efficiency on H652 printers only. ROI examples are available upon request.

² The applications, substrates, and inks listed in the charts represent the “standard” of what can be done on specific printers.

The EFI H1625 LED printer is available with a choice of ink sets:

- 3M™ ink for a wide range of high-flex applications, including those that require the 3M™ MCS™ Warranty
- POP ink with a harder cure for volume rigid-board printing and stacking
