

FIERY WORKFLOW SUITE

# Fiery Workflow Suite

## Grow Faster. Go Further.

# Produce More, Adapt to Customer Needs and Grow your Business

To survive in today's market, you need to meet expectations of print buyers for flawless color, quick turnaround on complicated documents and high-quality output on jobs from a wide array of sources – all at competitive prices.

In order to thrive, you need to do more.

To grow your business, offer your customers new services and products as well as convenient communication methods. Exceed customer expectations of value and turnaround time through increased automation that drives down costs and speeds production.

Fiery® Workflow Suite helps you do all this and more. Produce more from your existing print engines with streamlined and automated workflows; quickly adapt to changing customer demands; and grow with new higher-profit, value-added services.

## Thrive

Find out how you can produce, adapt and grow with Fiery Workflow Suite. For more information, go to [www.efi.com/fieryworkflowsuite](http://www.efi.com/fieryworkflowsuite).

## Produce

Streamlined, configurable workflows reduce touch points to eliminate human error and increase the capacity of your print engines:

- Automate job submission for increased accuracy.
- Use fully visual tools to dynamically preview how job settings affect the finished output.
- Deliver accurate, consistent color.

## Adapt

Adapt to changing customer demands with modular offerings that let you choose what you need now and add more as you grow:

- Centralize control of print job management to make existing print assets more scalable and productive.
- Fiery Workflow Suite offerings integrate with each other, and with other EFI products — for easy implementation, deployment and use.

## Grow

Add new customers and retain existing ones with top-quality output. Plus, strengthen your competitive capabilities with new value-added services:

- Develop the infrastructure to support personalized campaign management and efficient VDP production.
- Provide an always-open Web-to-Print storefront and new ways to communicate with customers.

# Fiery Workflow Suite

Fiery Workflow Suite is a comprehensive set of integrated products that:

- Increases print production efficiency with streamlined and automated workflows
- Maximizes use of print engine capacity and capability
- Processes more jobs more quickly — regardless of complexity
- Lowers labor costs by reducing touch points
- Helps you offer new higher-profit, value-added services

## Job Submission

## Color

Fiery Color Profiler Suite

## VDP

Fiery Variable Data Printing (VDP) technology

## Business Management

Fiery Dashboard, EFI Pace, EFI Monarch

## Powerful, Modular, Integrated

Fiery Workflow Suite has solutions for every stage in the print production process. Modular offerings let you choose what you need now and add more as you grow. You can integrate current production systems by centralizing control of print job management to make existing print assets more scalable and productive. Plus, Fiery Workflow Suite products integrate with each other, with other EFI products and with third-party solutions — for easy implementation, deployment and use.

Job Submission	<p><a href="#">EFI Digital StoreFront</a>: Web-to-Print platform provides an end-to-end content and eCommerce workflow that lets print buyers order, edit and preview job specifications. Integrates with Fiery servers and <a href="#">EFI PrintFlow</a>® to make your entire operation more efficient and profitable.</p>
Prepress	<p><a href="#">Fiery JobFlow</a>™: Browser-based PDF prepress workflow automation tools to ensure the integrity of jobs before going to print.</p> <p><a href="#">Fiery Graphic Arts Package, Premium Edition</a>: Professional tools to softproof, preflight and troubleshoot customer files; plus preview jobs and make last-minute edits.</p>
Make-ready	<p><a href="#">Fiery JobMaster</a>™: Advanced make-ready software simplifies complex document preparation tasks including fully visual tab insertion and design, media assignment, finishing, scanning and powerful late-stage editing capabilities.</p> <p><a href="#">Fiery Impose</a>: Streamlines and automates the document imposition process, making production more efficient. Cuts waste by displaying all jobs as they will print, before starting any run.</p> <p><a href="#">Fiery Compose</a>: Advanced document preparation provides centralized document assembly, WYSIWYG page-level ticketing, preview and editing features.</p>
Output Management	<p><a href="#">Fiery Central</a>: Combines multiple Fiery Driven™ digital printers and other select production printers into a centralized production system with a single, intuitive user interface. Integrates with <a href="#">EFI Digital StoreFront</a>, <a href="#">Pace</a>™ and <a href="#">Monarch</a> for accurate production reporting and seamless job submission.</p>
Processing	<p><a href="#">Fiery servers</a>: High-performance print server delivers unparalleled image and color quality, maximum productivity and seamless integration with existing workflows for exceptional results every time.</p>
Color	<p><a href="#">Fiery Color Profiler Suite</a>: Integrated profiling solution provides optimal color quality and best-in-class process-control monitoring with total color control from profile creation to visualization and editing.</p>
VDP	<p><a href="#">Fiery Variable Data Printing (VDP) technology</a>: Enables you to offer new high-margin VDP services. Open technology supports leading VDP workflows plus major design and production tools.</p>
Business Management	
EFI business management software integrates with Fiery servers.	
<p><a href="#">Fiery Dashboard</a>: Cloud-based service captures and aggregates a wide array of performance data from Fiery Driven digital print engines.</p>	<p><a href="#">EFI Pace</a>™: Browser-based, scalable and customizable print management system for estimating, production, accounting, sales management and e-commerce.</p>
<p><a href="#">EFI Monarch</a>: Print production and management solution for large, single and multi-plant operations.</p>
