

# Heidelberg Prinect with Fiery digital print servers.

Drive both digital and offset presses — the hybrid workflow to solve today's challenging print demands.

Heidelberg Prinect integration with EFI™ Fiery® digital print servers creates a single workflow management system for offset and digital printing. The hybrid workflow provides a significant impact on efficiency in many production scenarios: long or short job run lengths, a mix of static and variable components, or creating quick proofing with digital press for longer offset press runs. Each job can be routed

to the most cost-effective device on the fly from the same familiar Prinect user interface. By adding JDF-certified Fiery Driven™ digital presses, Prinect users not only leverage their current conventional prepress systems but also maximize the value of their investment by adding capabilities to further integrate with business management systems such as web-to-print and print MIS.

# Integration highlights

INTEGRATION FEATURES		DESCRIPTION
<b>Hybrid workflow and digital applications</b>		
<b>EFI Fiery Driven digital presses</b>	The best performance, usability, color, and integration for digital presses	<ul style="list-style-type: none"> <li>The widest selection of digital engines with industry-leading Fiery technology</li> <li>CIP4 JDF-certified to maximize interoperability</li> <li>Integration ready for EFI web-to-print and print MIS solutions</li> </ul>
<b>Hybrid workflow</b>	Control multiple devices from one user interface	<ul style="list-style-type: none"> <li>Manage prepress workflow for offset litho and digital, with one user interface</li> <li>Route jobs to the most cost-effective device</li> <li>Share the same job ticket and content for multiple devices, providing prepress consistency</li> </ul>
<b>Digital applications</b>	Benefit from hybrid workflow with digital presses	<ul style="list-style-type: none"> <li>Quick initial short run</li> <li>Short-run reprints of a long-run job</li> <li>Quick digital proofs for offset jobs</li> <li>Mixed static and variable components</li> <li>End-to-end automated production using online job submission (web-to-print integration)</li> </ul>
<b>Production process automation</b>		
<b>Template-based automation</b>	JDF templates to automate any color, media, layout, finishing settings, and more	<ul style="list-style-type: none"> <li>Directly select user-defined JDF templates from Prinect, associated with Fiery Virtual Printers</li> <li>Provide access to complete Fiery feature set and fully automates any job production settings available on Fiery servers, including color, media, layout, and finishing</li> </ul>
<b>Color</b>	Color mode mapping	<ul style="list-style-type: none"> <li>Dynamically map color mode setting from Prinect to Fiery servers via JDF/JMF</li> </ul>
<b>Layout</b>	Automatic booklet imposition	<ul style="list-style-type: none"> <li>Impose saddle-stitch booklet layout from Prinect for Fiery servers using JDF/JMF</li> </ul>
<b>Integrated user interface</b>		
<b>Media workflow</b>	Automatic media synchronization	<ul style="list-style-type: none"> <li>Automatically map media selection from Prinect to Fiery servers</li> <li>Access to full Fiery Paper Catalog library directly from Prinect</li> </ul>
<b>Device and job status</b>	Bi-directional device and job status updates in real time	<ul style="list-style-type: none"> <li>Device status: online/offline, error status</li> <li>Tray contents: Fiery Paper Catalog with loaded media indicated</li> <li>Job status: spooling, printing, printed, rejected, and canceled</li> </ul>
<b>Hardware and software requirements and compatibility</b>		
<b>EFI Fiery servers</b>	Supported Fiery Driven digital presses	<ul style="list-style-type: none"> <li>Fiery System 9R2 or higher</li> <li>Fiery JDF-enabled digital presses listed at <a href="http://www.efi.com/fjdf">http://www.efi.com/fjdf</a></li> </ul>
<b>Heidelberg Prinect</b>	Prinect Digital Print Manager	<ul style="list-style-type: none"> <li>Required for Fiery Driven digital printers</li> </ul>

## EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalized documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit [www.efi.com](http://www.efi.com) or call 650-357-3500 for more information.
