

Xerox® EX 80 Print Server Powered by Fiery®

Get more from your Xerox® Versant® 80 Press with an easy to use, powerful, scalable digital front end that delivers outstanding quality and best-in-class performance.

More High-Value Jobs, Faster

The powerful EFI® Fiery® server enables you to handle heavy workloads and provide faster turnaround times. It enables you to produce short-run jobs profitably by automating manual tasks and increases your workflow flexibility by supporting industry-leading variable data printing (VDP) formats.

Get outstanding color every time.

The Fiery server helps you produce consistent color out of the box. Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver stunning, smooth vector gradients that will delight your customers by printing with the true appearance designers intended.

Speed up makeready, reduce waste.

Fiery Impose simplifies layout work with intuitive, visual document imposition. Speed up production with imposition templates to automate common layouts.

Streamline your operation.

Fiery technology allows you to centralize job management by connecting to all Fiery servers on the network. The intuitive interface of Fiery Command WorkStation® makes complex jobs simple to set up and print, regardless of the operator's experience. The flexible software runs on a PC or Mac® for productive remote job management.

Automate with seamless integration.

Fiery JDF technology connects EFI MIS and Web-to-Print solutions to your Fiery Driven™ Xerox® Versant 80 Press, so you can move job information through your system faster and more efficiently. The Fiery server also integrates with the Xerox® FreeFlow® Digital Workflow Collection and Xerox® FreeFlow® Core for workflow automation as well as leading prepress workflows.

Print perfect PDFs.

By supporting the Adobe® PDF Print Engine® 3.0, Fiery servers offer a native end-to-end PDF workflow, allowing you to improve the consistency of your printed output from design to print.

More performance and productivity.

The Performance Package option from Xerox delivers higher ROI with powerful tools for professional production environments to achieve the highest color consistency and precision at all times, streamline job preparation and ensure maximum productivity.
