

Xerox® EX-i 80 Print Server Powered by Fiery®

Need world-class color with workflow tools that put you in command? Need easy access to essential applications such as security, accounting, mobile print and many others? The Xerox® EX-i 80 Print Server Powered by Fiery for the Xerox® Versant® 80 Press is the right choice.

More ROI with Higher Productivity

The Xerox® EX-i 80 Print Server enables you to print large and complex Microsoft® Office documents, PowerPoint® files and color-critical PDFs accurately and quickly. It improves throughput and productivity by printing one page while processing subsequent pages, and by storing processed pages in memory before printing.

Simplify and streamline your workflow.

Automate job submission and eliminate repetitive workflows for faster, error-free printing with Fiery® Hot Folders and Virtual Printers. Take advantage of commonly used Fiery presets to save time when submitting jobs. With Fiery technology, even novice users can perform complex jobs using the presets configured for the task.

Get the color right.

Produce precise, consistent color from all applications, platforms and formats with Fiery ColorWise® color management technology. Accurately match corporate, logo, brand and custom colors with Fiery Spot-On®. Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver stunning, smooth vector gradients that will delight your customers by printing with the true appearance designers intended.

Turn up the impact with variable information.

Customize your output to a specific audience with varying text, photos and graphics with the free Fiery FreeForm™ variable data printing capabilities.

Create professional printed materials quickly and easily.

Produce professional materials in just three simple clicks with Fiery VUE, a free 3D “visual print application” that guides you through an interactive and intuitive workflow—ideal for applications such as printed presentations, booklets, sales guides and training manuals.

A Secure Production Environment

Concerned about security? So are we. Your administrators will appreciate the Xerox® EX-i 80 Print Server’s complete toolset covering all aspects of document and device security.

Print directly with free Wi-Fi printing capability.

Direct Mobile Printing for Apple® iOS® devices enables wireless printing simply and easily, at no extra cost. Users do not need any additional print drivers or software for printing. EFI® PrintMe® for Fiery allows all users to upload or email documents to the PrintMe Cloud Service and release them to print from the printer control panel.

Fiery VUE from EFI is a free “visual print application” that produces professional-looking, finished print materials quickly, easily and cost-effectively from your desktop.
