

FIERY PRODUCTION SOLUTIONS

imagePRESS A3300, A2300, A1300

Increase Your Profits, Productivity and Customer Satisfaction

Your print production business faces many challenges – high work volumes, tight deadlines, employees with different skill levels and customers who demand perfect color. The high-performance imagePRESS servers for the Canon imagePRESS C7010VP/C6010VP/C6010 are scalable, easy-to-use, boost productivity, and allow you to produce professional-looking finished jobs that win new business and get you noticed.

Increases Your Profits by Boosting Productivity

Fiery technology increases your profits by delivering impactful documents with vibrant images and color that exceed your customers' expectations and allow you to provide new, high-value services. Fiery technology also meets those tight turnaround times and allows you to do more work by automating manual tasks and removing bottlenecks that slow down production.

Produces Consistent and Accurate Color

Your customers expect accurate color every time, no matter how difficult the job. The imagePRESS servers help you achieve precise color with integrated tools that can be used by employees at all skill levels.

- Fiery ColorWise® color management technology gives you great color control and extensibility out of the box.
- The new Image Enhance Visual Editor enables customers to make on-the-fly corrections for individual images without the need to go back to the original design files.
- Robust calibration features ensure repeatable consistent color.

Integrates Your Solutions and Works Across Platforms

The imagePRESS servers seamlessly integrate with your existing prepress workflows, third-party software and other EFI™ solutions to:

- Automate your business and printing processes to save labor costs and shorten lead times.
- Connect with Web-to-print and MIS solutions.

- Support Windows® and Macintosh clients through the Fiery Command WorkStation®.
- Support the Adobe® PDF Print Engine v2 for native end-to-end PDF workflow – improving consistency and flexibility from design to print.

Offers the Ultimate Control Over Job Management

The imagePRESS servers come with powerful management tools and the flexibility to re-prioritize last-minute job changes with minimal interruption and downtime. These tools, together with the server's advanced queue management, increase productivity and profitability.

An interactive visual user interface on the Fiery Command WorkStation makes it easy for administrators to monitor, control and troubleshoot production from multiple desktops, or locally at the Fiery server. Features such as Hot Folder and Virtual Printers automate repetitive tasks to reduce waste and errors. Make-ready tools and driver-based imposition speed up the composition and imposition processes.

The imagePRESS servers address the rising need for personalized marketing services with the most flexible and scalable variable data printing workflow in the industry. Its optimized tools work with all industry languages, including PPML, PDF/VT-1 and legacy languages. EFI's VDP applications accelerate the merging of variable and global objects and the processing of multiple images – all while driving maximum-speed output from your print engine.

Fiery Utilities

- Fiery Driver 4.3 Windows, 4.4 Mac
- Fiery Command WorkStation 5
- Fiery WebTools™

Fiery Color Technology

- Fiery Spot-On
- Auto Trapping
- PANTONE® Calibrated System
- Fiery Image Enhance Visual Editor
- Fiery Graphic Arts Package

Productivity & Workflow

- Spool-RIP-Print Simultaneously
- Adobe® PDF Print Engine 2 support
- Fiery JDF support
- Fiery Hot Folders/Virtual Printers
- Booklet Maker
- Fiery Paper Catalog

Variable Data Printing

- Fiery FreeForm™ v1 enhanced and v2.1
- PPML GA, PDF/VT-1
- PODi certified
- Creo VPS Compatible
- Optimized PostScript® and PDF

File Format Support

- Adobe® Postscript® Level 1, 2, 3
- Adobe PDF
- PDF/X-1a, 3 and 4
- Encapsulated PostScript (EPS)
- MS Office document formats: doc, xls, ppt, pub (via Hot Folders)
- Supported Formats with Graphic Arts Package, Premium Edition: JPEG, DCS 2.0, CT/LW, 1-bit TIFF, TIFF, TIFF/IT, PDF2Go

Networking / Connectivity

- TCP/IP
- AppleTalk
- Point and Print
- Bonjour
- Direct Mobile Printing
- PrintMe Cloud Printing
- SNMP
- Port 9100 (w/BIDI)
- IPP, FTP, SMB
- Network Time Protocol
- IPv6 Support

Operating System

- Windows7 Professional for Embedded Systems x32/x64

Security

- IP Filtering for IPv4/IPv6
- Secure Erase
- Backup and restore
- Fiery Clone Tool
- Encryption of critical information

Power Supply and Consumption

- Auto-switching: 100–240 VAC
- 47-63 Hz for global use
- A3300: 300 W MAX, A2300 and A1300: 200 W MAX

EMC and Safety

- EN55022 Part B (CE marked), FCC Class B, VCCI II
- CE Mark, CSA, TUV/GS, UL, CB Scheme, RoHS
