

Canon imagePASS-A2 and imagePASS-B2

for the Canon imageRUNNER ADVANCE C7260i, C7270i, C7280i, C9280 PRO and C5235i/C5240i/C5250/C5250i/C5255/C5255i

Choose a Versatile Solution for Your Business Needs

The Canon imagePASS-A2/B2 caters to busy office workgroups and enterprise environments that need an easy-to-use, secure solution with high colour quality and outstanding productivity.

Maximise Productivity

The new Fiery System 10e platform processes jobs almost two times faster than its predecessors and increases the printing speed of Microsoft® Office and Adobe® documents by providing the most efficient path for image and graphic-rich files.

Achieve Accurate, Consistent Colour

You expect accurate colour every time, no matter how difficult the job. Fiery systems help you achieve precise colour with integrated tools that can be used by employees at all skill levels.

- Fiery ColorWise® colour management technology gives you great colour and image quality right out-of-the-box.
- Fiery Spot-On™ offers a complete and easy-to-use toolset to achieve the best match to PANTONE® and custom spot colours.

Use an Easy and Friendly Office Solution

Fiery VUE is a “visual print application” that allows you to produce professional-looking, finished print materials quickly, such as booklets, easily and cost-effectively in-house. The interactive desktop application comes with a user-friendly 3D interface that visually guides you through the document-creation process with intuitive layout and finishing tools.

Integrate with Your Corporate Environment

The Canon imagePASS-A2/B2 support a wide range of corporate network environments with data and network security protection.

- Manage the security of your data effectively with Secure Erase, user authentication and encryption of critical information.
- Administrators can set general authentication, disable network ports and services, set IP filtering and support anti-virus software.

- Offers multiple ways to securely print on the go – enabling users to print from mobile devices, in the office or at a remote location.

Scale Your Controller as Your Business Needs Grow

Your Fiery controllers come with optional features to cater to professional printing environments:

- Fiery Productivity Package offers a host of graphic arts and workflow optimisation features including Image Enhance Visual Editor, an interactive tool for optimising image appearance and colour corrections.
- Fiery Hot Folders and Virtual Printers automate the job-submission process, reducing errors and automating repetitive tasks with a simple ‘drag-and-drop’ operation.
- Fiery SeeQuence Impose offers visual imposition and document preparation capabilities to ensure accurate, finished documents on time.

Canon imageRUNNER ADVANCE C5255

Canon imagePASS-A2/B2

Hardware & Platform

- Intel® Pentium® Processor E5300 2.6GHz
- 2 GB RAM
- 160 GB HDD
- Fiery System 10e
- Linux operating system
- USB Media Server

Fiery-Driven® Engines

- imagePASS-A2 – Canon imageRUNNER ADVANCE C7260i, C7270i, C7280i, C9280 PRO
- imagePASS-B2 – Canon imageRUNNER ADVANCE C5235i, C5240i, C5250, C5250i, C5255, C5255i

Fiery Utilities

- Fiery Driver v4.3 for Windows
- Fiery Driver v4.4 for Mac
- Fiery Command WorkStation 5.3
- Fiery WebTools™
- Backup and Restore

Page Description Languages

- Adobe® PostScript® Level 3
- Double Byte Font Support (CID fonts only)
- Enhanced PCL6/PCL5

Fiery Color Technology

- Fiery ColorWise®
