

Stay at the top of your game

As an in-plant print provider for government agencies, you live better-faster-cheaper every day. And rapidly evolving technology can make it difficult for your shop to stay relevant and out of the budget crunch crosshairs. EFI™ is dedicated to partnering with government print operations to help them be as efficient and innovative as possible with next-generation print capabilities.

Technology that's changing the game

The addition of digital wide-format graphics printing will enable you to expand your service offering and provide greater value to your customers. With the in-house capability to print long and short runs direct to almost any media, you can quickly and easily produce a wide range of applications and specialty items without the need to manage outsourced print vendors.

WIDE-FORMAT GRAPHICS AT A GLANCE:

Outdoor Graphics

- Backlit signage: day and night
- Banners
- Fleet graphics
- Vehicle wraps
- Transit and informational signage

Point-of-Purchase (POP) Displays

- Rigid POP displays
- 3D POP displays
- Open-box packages and displays
- In-store promotions
- Short-run packaging for prototyping, seasonal promotions and one-off events

Indoor Graphics

- Branding promotions
- Popup displays
- Posters
- Backlit signage: day and night
- Exhibition and event graphics
- Floor and window graphics
- Backdrops for theater or TV
- Photographic reproductions

Expand your possibilities

Our affordably priced 65-inch (1.6 m) wide EFI H1625 LED hybrid roll-fed/flatbed inkjet printer offers access to the widest range of rigid and flexible substrates while delivering production speeds and superior, high-definition image quality.

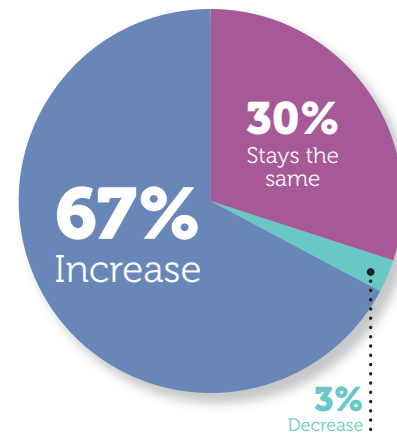

- Print four color plus white on an extended range of flexible and rigid substrates
- Produce near photographic images, saturated colors and smooth gradations with true 8-level, variable-drop grayscale print capability
- Ensure superior color accuracy and increase productivity with the Fiery® XF digital front end and color management workflow
- Print on more substrates and open doors to more applications and unique creative opportunities
- Keep operating costs down with decreased power use, fewer consumable parts and less waste with consistent color output and simple operation

It's the perfect choice when image quality and turnaround are critical to meeting demands for traditional signage and display applications, as well as customized or specialty items.
