Supported Operating Systems and Browsers for PrintSmith Vision

March 2016

Dear PrintSmith Vision Customer:

We at EFI are committed to providing our customers and partners with superior products and services. We strive to provide a broad range of solutions and continually review our solution portfolio to discover how we can strengthen it. For example, as new versions of operating systems are introduced, we stop supporting older versions.

PrintSmith Vision Server and Windows Support Effective March 2016

As of the March 2016 release of PrintSmith Vision, EFI will no longer support Windows 7 and Windows Server 2008 for the PrintSmith Vision server for both new and existing installations.

Note Windows 7 continues to be supported for client computers.

PrintSmith Vision Server and Mac OS X Support Effective March 2016

As of the March 2016 release of PrintSmith Vision, EFI will no longer support Mac OS X 10.9 and 10.9 Server for the PrintSmith Vision server.

Note Mac OS X 10.9 continues to be supported for client computers.

Internet Explorer Support Effective December 2016

As of the December 2016 release of PrintSmith Vision, EFI will no longer support the Internet Explorer browser.
