

Maximize your value with Fiery technology

As a government in-plant shop, your organization always wants better, faster, and cheaper services. So you need ways to continuously reduce costs by increasing efficiency to stay competitive with private sector services.

Fiery technology increases productivity

Innovative Fiery® digital front ends (DFEs) and workflow solutions can help you provide a far better level of service, adding value to your organization at a much lower cost with:

- Workflow automation for higher efficiency, lower cost, and faster turnaround times to serve customers quickly
- Easy reprints for government publications, certificates, financial and budgetary reports, meeting minutes, parliamentary briefs, stationary, forms, and promotional booklets
- Print processes that are accurate and secure

"Our Fiery workflow makes it easier to process files, and because of that we are now able to do time-sensitive work that we couldn't handle before."

Paul Sprow,
Manager,
Arlington County Digital
Production and Mail Center

Fiery advantages

Increase productivity

The work of government is fueled by time-sensitive documents, so processing speeds matter. Fiery DFEs with HyperRIP split files to process them simultaneously, so they reach the print engine up to 55% faster and rapidly process variable data files.

Cut costs

Streamline and automate workflows with Fiery Workflow Suite products. Manage print jobs and all Fiery Driver™ printers from Fiery Command WorkStation®. Minimize print errors and waste with real-time previews. Deliver exceptional quality automatically with state-of-the-art Fiery imaging and color technology.

Make job submission more convenient

EFI Digital StoreFront® lets users quickly and easily identify, customize, and securely order documents. Automated job submission to the Fiery DFE delivers faster turnaround time, lowers labor cost, and reduces errors.

Speed return on investment

Teach your employees to use Fiery DFE capabilities to the fullest to maximize return on your equipment investment with the Fiery Professional Certification program. This commitment to employee development can also increase employee loyalty and job retention.

Call for a Fiery demo today

EFI works closely with leading print engine manufacturers and dealers to provide integrated printing solutions, services, and support worldwide. Ask for a demo to see how EFI products can improve your productivity.

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalized documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit www.efi.com or call 650-357-3500 for more information.

Fiery digital front ends provide:

- Job, color, and media management
- Workflow and job automation
- Preflight and softproof
- Document makeready
- Variable data processing
- Finishing support
- MIS/Web-to-Print integration
