

Shield against the elements

EFI™ Armor UVF is a non-yellowing, clear roll coat developed with excellent chemical and solvent resistance to shield printed graphics on flexible materials from sun and element exposure. Formulated with UV inhibitors proven effective in preventing pigments from fading, Armor UVF will guard printed graphics up to five years without cracking or peeling.

Applications

- Sports and outdoor graphics
- Long term decals
- Truck side curtains
- Flex face signage
- Banners and billboards
- Building wraps and perforated films

AT A GLANCE	
Durability	Up to five years
Mixing	Supplied at print-ready viscosity and can be used directly from the container; thinning is not recommended
Roll Coat	Recommended coat weight of 3/10ths to 5/10ths mil dry film
Shelf Life	One (1) year from date of manufacture
Cure Parameters	One 200 watt per inch medium pressure mercury vapor lamp with output of at least 225 mJ
Coverage	3,400 – 3,600 square feet per gallon
Finish	High gloss or matte

To determine suitability of the product for the intended use, a pretest prior to production is advised.

When your print wears Armor, it's ready for anything.

Whether you're printing on rigid boards, flexible media or thermoforming materials, you need to protect your print from the sun, weather, wear and tear, even chemicals. EFI has the post-printing coating formula for success – EFI Armor. Our line of proprietary products does a lot more than coat. It defends. It shields. It guards. It preserves.

Protect your print, protect your color, protect your reputation. With EFI Armor.

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalized documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit www.efi.com or call 650-357-3500 for more information.
