

Protect your colour

EFI™ Armor UVR is a fast-drying, non-yellowing, clear roll coat developed to protect the colourfast properties of printed graphics on rigid media for up to three years. Armor UVR is extremely resilient with unmatched abrasion characteristics, and its solvent and chemical resistance far exceeds that of traditional over laminates. In some cases, with its broad adhesion range, EFI Armor UVR also can be used as a UV digitally receptive primer.

Applications

- Signage
- Coroplast
- Custom counter tops
- Coated metal and aluminium
- Gas pump and fuel dispensing enclosures

AT A GLANCE	
Durability	Up to three years
Mixing	Supplied at print-ready viscosity and can be used directly from the container; thinning is not recommended. Mix well prior to use.
Roll Coat	Recommended coat weight of 12.70-19.05 µ dry film
Shelf Life	One (1) year from date of manufacture
Cure Parameters	A single medium pressure mercury vapor lamp emitting output of 200 mj/cm ² at 600+ mw/cm ²
Coverage	82 - 88 sqm per litre
Finish	High gloss Matte

To determine suitability of the product for the intended use, a pretest prior to production is advised.

When your print wears Armor, it's ready for anything.

Whether you're printing on rigid boards, flexible media or thermoforming materials, you need to protect your print from the sun, weather, wear and tear, even chemicals. EFI has the post-printing coating formula for success – EFI Armor. Our line of proprietary products does a lot more than coat. It defends. It shields. It guards. It preserves.

Protect your print, protect your colour, protect your reputation. With EFI Armor.

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity.
