REGGIANI
Innovation
Trendsetter

Textile in our DNA since 1946

Where innovation embraces tradition

EFI Reggiani: One stop shop for all of your industrial textile needs

With more than 70 years of innovation, research and technological excellence, EFI™ Reggiani – which includes the Reggiani Macchine, Mezzera and Jaeggli brands – is your trusted partner for integrated, scalable solutions for the entire textile process. From yarn treatment to fabric printing and finishing, EFI Reggiani provides high-quality machines across the globe for apparel, sportswear, home textiles, outdoor and signage applications.

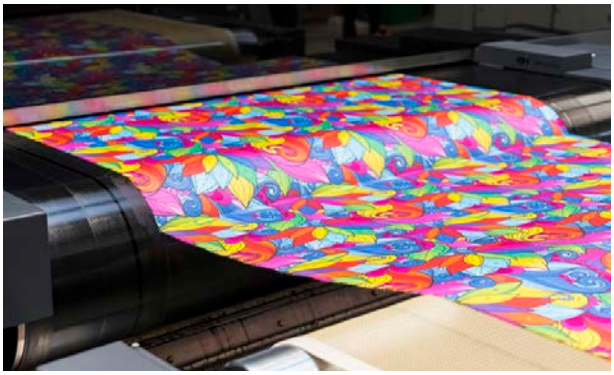
EFI Reggiani is always moving to the next level, developing new textile industry solutions and processes to join our existing world-class product lines.

EFI Reggiani printing solutions

EFI Reggiani digital printers: At the edge of technology

From small businesses to complex industrial plants, EFI Reggiani offers the high-performance solutions that keep textiles and profits flowing. Our scan and single-pass printers and inks are the global leading technologies for virtually every fabric and paper printing application.

Outstanding productivity and performance, and printing accuracy and quality, combined with low ink consumption, give you the most competitive cost per foot available on the market.



EFI Reggiani breakthrough inks: Water-based formulas and chemicals designed to boost the printer's performance

Our high-performance inks are tailored for EFI Reggiani printers and superior reliability to ensure:

- Extraordinary brightness and vibrancy
- Extensive color gamut
- Longer print head life

EFI Reggiani BOLT: Rewriting the rules of single-pass textile printing

The EFI Reggiani BOLT delivers superior throughput and quality with unparalleled printing uniformity and accuracy. Add superior print head life and minimal maintenance and you've got a highly competitive return on investment.

EFI Reggiani analog printers: 70 years moving textile forward

EFI Reggiani traditional industrial flatbed and rotary printers are preferred by a worldwide market looking for top-performing machines with high efficiency and profitability. With an installed base surpassing 2,600 units, EFI Reggiani traditional industrial printers represent premium quality and reliability, combined with extended uptime, fast setup time and reduced water consumption.

Pre and post treatment solutions

EFI Mezzera: The specialist in preparation and finishing solutions

The EFI Mezzera high-efficiency fabric preparation and finishing lines improve all the characteristics of the finished garment for textile perfection.

- **Preparation lines:** The purification of textile fibers gives fabrics all the characteristics required for dyeing and printing processes. This treatment includes mercerizing, bleaching and singeing operations.
- **Washing lines:** Open width washing merges tradition and innovation into a reliable and versatile machine, designed with the utmost care to reduce polluting agents and water consumption.
- **Dyeing lines:** Extremely delicate treatments for first class fibers where careful and delicate treatment is fundamental throughout the entire dyeing process.
- **Denim lines:** Pioneers in indigo under Nitrogen atmosphere dyeing solutions, Nitrogen reactor is the only technology capable of saving chemicals during the processes without compromising the final result.

EFI Jaeggli yarn treatment machines: Mercerizing at its best

The EFI Jaeggli Extensa hank mercerizing machine for yarn treatment offers high operational flexibility, easy repetitiveness and absolute evenness. You consistently get top results in the final yarns quality in terms of brilliancy, strength, dimensional stability and the dyeing affinity of yarns.

The EFI Reggiani commitment for sustainable solutions

EFI Reggiani remains steadfast in its commitment to developing innovative solutions that carefully balance sustainability with machine performance. Our green processes focus on energy, water and ink savings, reducing color waste, the use of recyclable materials, and a drastic reduction in pollution in every part of our supply chain, covering the full textile workflow.

Starting in 2010, EFI Reggiani digital printers are all certified with the ACIMIT (Italian Textile Machinery Manufacturers Association) "Green Label," a certification that guarantees our commitment to offer eco-sustainable processes to our customers.

Green processes to improve textile industry sustainability

EFI Reggiani customer service experience

EFI Reggiani maintains a worldwide network of local agents, distributors, and after-sales service centers in crucial markets, allowing us to support our customers in an efficient, timely, and effective manner. Our after sales support is a true customer experience differentiator with:

- 24/6 onsite and remote technical support
- Highly skilled engineers
- Global network for spare parts supply and distribution
- Local language assistance
- Scalable and tailored service agreements
- Professional services for the entire machine lifecycle

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity.
